Allowable Subject Matter

Claims 1, 3-6, 8 and 9 are allowed.

The following is an examiner's statement of reasons for allowance:

process as metadata upon process execution to register in the memorizing section, where the metadata previously registered in the memorizing section are stored in a predetermined memory, where the output data created by both or either of the summary operation process and the specification operation process are used as input data of the group operation process for each of business service unit, processing cycle, management unit, and specification/summary classification, where the output data created by the group operation process is used as input data of the time-series operation process, and where both or either of the summary operation process and the specification operation process, the group operation process, and the time-series operation process are formed into a serial process flow. The prior art of record does not disclose the limitation as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
